ASPIRING DATA ANALYST | COMPUTER SYSTEMS STUDENT | TECH CAREER FOCUSED

Management | Organization | Communication | Problem Solving | Teamwork

Driven Computer Systems student graduating Spring 2026 with a passion for software development and data analysis. Eager to grow through real-world projects, mentorship, and hands-on learning. Excited to join the Tech Talent Pipeline Residency to build skills, gain experience, and take the next step toward a tech career.

Technical Skills

- Data Analysis
- Python (Beginner)
- HTML(Beginner)
- Excel
- Dart
- Microsoft Word
- SQL (basic)
- Tableau (basic dashboards)

Projects

IMDb Movie Data Explorer

Python, Pandas, Google Colab

- Built a beginner-level data analysis project using an IMDb dataset
- Cleaned CSV data, handled missing values, and converted data types using Pandas
- Created bar charts and histograms to explore movie genres, ratings, and vote counts
- Practiced version control and documentation by publishing project to GitHub

College Gym Website

HTML, VS Code

- Designed and coded a simple, multi-page website for a fictional gym
- Practiced HTML structuring, page linking, and embedding Google Maps
- Learned basic website layout principles and file organization

Education

B.S. in Computer Systems (Software Development Track)

New York City College of Technology – CUNY

Expected Graduation: 2026

A.A.S in Computer Systems

New York City College of Technology – CUNY

Graduated: 2024

Relevant coursework: Database Systems Fundamentals, Operating Systems Fundamentals, Strategic Management

Employment

Office Assistant / Expediter

Building Violations Office – NYC • 2020 – 2021
